

**MANUFACTURER OF SPECIALTY VEHICLES**

Malley Industries was the first vehicle modifier in Canada to have attained two certifications for adaptive mobility vehicle modifications: the Ford Truck Quality Program (FTQP) and the National Mobility Equipment Dealers' Association Quality Assurance Program (QAP).

## ***Lowered Floor Conversions for Ford Vans***

Adaptive mobility conversions are tailored to the unique needs of each customer. We specialize in lowered floor modifications to the Ford E-250 chassis, which provides 6" of additional headroom for wheelchair accessibility, while maintaining the original look of the vehicle. We carry out custom adaptive mobility conversions on a wide range of vehicle platforms. These include raised roof / raised

door side and rear entry lift installations, hand controls, restraint systems, and high tech adaptive driving aids.
