

MANUFACTURER OF SPECIALTY VEHICLES

Ford E350 Para-Transit Conversions

Para-transit conversions on the Ford Econoline chassis accommodate the safe transport of multiple passengers, both ambulatory and in wheelchairs. Modified for the customer's specific needs, each unit is compliant to stringent quality and safety standards. Commercial conversions are available in a variety of configurations. CSA-D409 compliant.

Malley Industries was the first vehicle modifier in Canada to have attained two certifications for adaptive mobility vehicle modifications: the Ford Truck Quality Program (FTQP) and the National Mobility Equipment Dealers' Association Quality Assurance Program (QAP).
