Products of the highest quality

From the smallest component to the finished product, a steadfast commitment to quality assurance is the foundation on which every ambulance conversion is completed.

Through the planned use of training, process improvement & control, testing and inspection we ensure that high quality is designed into every product that we sell. In addition, post delivery data is collected and analyzed to seek out opportunities for continuous improvement.

Malley Industries Inc. is certified compliant to the ISO 9001:2000 standards for quality, a licensed motor vehicle dealer, has Ministerial Authorization by Transport Canada as a final stage manufacturer, and is certified to the Ford Motor Company QVM (Qualified Vehicle Modifier) program & Ford Truck Quality Program (FTQP)
