

Dejana DuraRac for full-size vans

The DuraRac® is a patent pending design offered exclusively by Dejana Truck and Utility Equipment and their approved distributors. It is designed to offer the most efficient use of your van's cargo area.

Standard configuration is with either two or three pull out shelves (44.5" x 46"). No crawling into the van kneeling on an unseen sharp object or tool. Pull-out shelves bring everything that was on the inside within easy reach! Each shelf can handle an evenly distributed load of 300 lbs.

Key Features

- Each shelf can be fully extended using heavy duty commercial grade drawer slides with double locking mechanisms and a center mounted assist handle.
- Shelves are constructed of extruded aluminum perimeter angle and 3/8" thick FRP shelving material.
- Shelving can be adjusted vertically with the use of a 7/32" hex tool aided by the measuring tape markings on each vertical upright.
- Optional ABS molded wall cladding (not shown) is available for van models.
- With the optional "delivery control system" you can keep things from sliding, tipping and turning over!
- An optional 6" or 10" deep drawer can handle larger tools such as meter bags, gauges, sprayers, cord

Product	Description
CRS 03-110000	GM DURARAC, 2 SHELVES
CRS 03-111000	GM DURARAC, 3 SHELVES
CRS 03-111100	GM DURARAC, 4 SHELVES
CRS 03-120000	"GM DURARAC, 1 SHELF WITH 1-6" DEEP DRAWER"
CRS 03-130000	"GM DURARAC, 1 SHELF WITH 1-10" DEEP DRAWER"
CRS 03-112000	"GM DURARAC, 2 SHELVES WITH 1-6" DEEP DRAWER"
