

Dejana Katerack for Transit Connect

The Katerack® modular interior shelving package designed specifically for the Transit Connect is a versatile storage system ideal for a wide variety of vocations. Offered exclusively by Dejana Truck and Van Body and it's approved distributors, the Katerack® is designed to offer the most efficient use of Transit Connect's spacious cargo area.

Key Features:

- Each shelf 0.12" aluminum and 3/8" FRP shelf can handle an evenly distributed load of 250 lbs.
- Each shelf can be fully extended using HD Commercial Grade 36" drawer slides with double locking mechanisms and a center mounted assist handle
- Shelves are constructed of extruded aluminum perimeter angle and 3/8 thick FRP shelving material
- Shelving can be adjusted vertically with the use of a 7/32" hex tool aided by the measuring tape markings on each vertical upright
- The Katerack® easily fits into a van outfitted with a Malley Industries Transit Connect Liner Package.
- Transit Connect Cargo Van dimensions: 42.5" wide by 36" deep.
- Transit Connect Wagon Van dimensions: 42.5" wide by 30" deep.

Storage Inserts

Standard moulded-plastic inserts are available for a wide range of applications, including food-grade material for the catering industry. Alternatively, optional custom designs can be produced to meet even the most specific requirements.
