

Law Enforcement Vehicles

Protecting the public requires vehicles with the right combination of equipment and design efficiency. Whether your law enforcement agency is looking for a fleet of vehicles or a one-of-a-kind custom configuration, our fabrication specialists will accommodate the unique needs of your organization on the vehicle platform of your preference.

We work closely with our clients to ensure that the finished product meets the design and functionality needs for the specific end use.

PRODUCTION CAPABILITIES

Our modern manufacturing facilities offer an extensive range of on-site services and production capabilities

- Steel & aluminum fabrication and welding (MIG and TIG)
